AHEAD OF THE LEARNING CURVE

September–October

INSIGNIA PRESENTS:

REFLECTIONS

Every month leaves behind moments worth remembering. The team of Insignia is delighted to introduce Reflections, a new addition to our newsletter that captures the highlights, achievements, experiences, and memories of each passing month. A little look back at the moments that shaped our journey, celebrating the stories that make every month special.

September

A Spectacular Salute: Student-Led Smiles, Songs, and Secrets

September began on a heartwarming note as students came together to celebrate Teachers' Day, expressing their gratitude to the educators who guide and inspire them.

Entirely student-led, the celebration featured vibrant dances, musical tributes and entertaining skits, filling the auditorium with enthusiasm and applause. A special treasure hunt organised exclusively for teachers added an element of excitement, giving them an opportunity to participate in some lighthearted fun.

The event was a memorable tribute to the dedication, patience and invaluable contributions of our teachers.

Reclaiming Our Roots: The Ultimate Tribute to Fluency, Folklore, and Freedom

Language is a reflection of our culture, and Bhasha Saptah celebrated this beautifully through a week dedicated to Hindi and Telugu.

Students showcased their linguistic skills through various competitions, including Ekapatrabhinayam. A thought-provoking student drama highlighted the declining use of Hindi in everyday conversations amid the growing influence of English and social media. Teachers enthusiastically joined the celebrations, participating in Hindi and Telugu quizzes alongside students.

The week served as a meaningful reminder of the cultural richness of our languages and the importance of preserving them for future generations.

Little Steps to Big Safety: Empowering, Educating, and Protecting Our Youngest Learners

An important lesson in personal safety was introduced to our youngest learners at EuroKids through an age-appropriate session on safe touch and unsafe touch.

Using simple stories, songs and engaging activities, nursery and kindergarten students learnt about personal boundaries and the importance of speaking up when uncomfortable. They were encouraged to say "No", move away and approach a trusted adult, such as a parent or teacher, for help.

The session fostered awareness, confidence and an early understanding of personal safety in a supportive environment.

Devotion, Dance, and Divine Duty: Celebrating the Greenest Ganesh Chaturthi

The school campus came alive with devotion and festive cheer as students and faculty celebrated Ganesh Chaturthi, seeking the blessings of Lord Ganesha.

Adding an eco-conscious touch to the festivities, the school distributed miniature clay Ganesha idols, encouraging students to embrace sustainable celebrations. The celebrations were further enlivened by a vibrant dandiya performance by the younger students, whose colourful presentation and rhythmic movements delighted the audience.

The occasion beautifully combined cultural traditions, devotion and environmental awareness, bringing the school community together in celebration.

September also marked an important academic milestone with the commencement of the half-yearly examinations. Students approached their assessments with preparation and determination, putting their learning to the test across various subjects.

The examination period reflected their continued efforts, supported by the guidance of teachers and encouragement from parents. We appreciate the dedication shown by everyone throughout this important phase of the academic year.

October

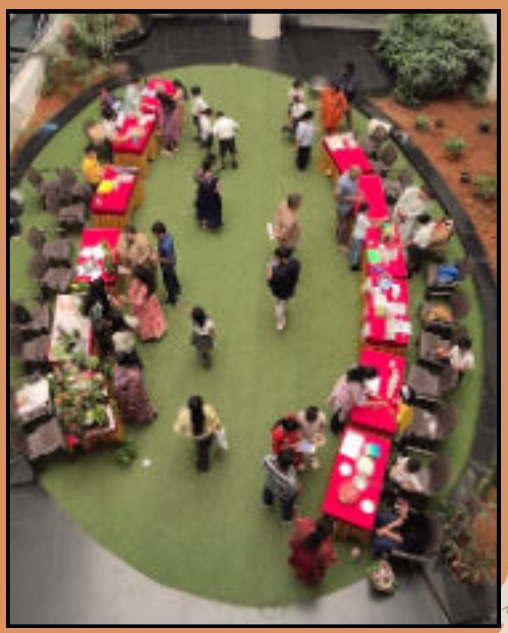

The Joy of Giving | Daan Utsav

Celebrating the spirit of generosity, The Global Edge School marked Daan Utsav, India's festival of giving, with a lively fair organised by students and parents.

The campus buzzed with homemade delicacies, exciting games and a variety of stalls, bringing the school community together. Beyond the festivities, students gained valuable experience in teamwork, planning and financial management. All proceeds were donated to the Rural Development Foundation to support its initiatives among rural communities.

The fair was a wonderful celebration of community spirit, generosity and the joy of giving.

A Drop of Hope, A Gift of Life | Blood Donation Drive

In a meaningful initiative towards community welfare, The Global Edge School organised a blood donation drive in collaboration with the NTR Memorial Trust Blood Centre.

Staff members and parents participated enthusiastically, demonstrating remarkable generosity and social responsibility. The Trust's team ensured that the drive was conducted smoothly and safely, creating an atmosphere of compassion and shared purpose.

The initiative highlighted the importance of blood donation and the powerful difference that collective community efforts can make.

Beyond the Classroom | Educational Field Visits

October brought learning to life as students of Grades 7, 8 and 9 embarked on educational visits designed to connect classroom concepts with real-world experiences.

Grade 7 students explored Rashtrapati Nilayam, discovering its historical significance, heritage buildings and beautiful gardens. Grade 8 visited Do Science, where interactive experiments encouraged curiosity and scientific exploration. Meanwhile, Grade 9 students toured a biogas plant, gaining insights into organic waste management, renewable energy and sustainable living.

These enriching experiences encouraged observation, discovery and a deeper appreciation of the world beyond textbooks.

Celebrating India's Unity in Diversity | Social Science Week

Celebrating India's remarkable heritage and cultural richness, Social Science Week brought the spirit of Unity in Diversity to life across the school.

Students put their knowledge to the test in an exciting Inter-House Social Science Quiz, while classrooms transformed into vibrant displays of informative charts and creative artwork. The highlight was a special assembly organised by the Social Science Department, featuring a thought-provoking skit, a collaborative dance and inspiring accounts of India's iconic achievements and visionary personalities.

The week reinforced the importance of understanding our history, geography and civic responsibilities in shaping informed and responsible citizens.

DID YOU KNOW?

The fear of long words is called Hippopotomonstrosesquippedaliophobia. The 36-letter word was first used by the Roman poet Horace in the first century BCE to criticise those writers with an unreasonable penchant for long words. It was American poet Aimee Nezheukumatathil, possibly afraid of their own surname, who coined the term as we know it in 2000.

"Two roads diverged in a wood, and I—I took the one less traveled by, And that has made all the difference."

–Robert Frost
